Release Note LS-300 v2.9.0.12

New Features

Item	NEW Features
WEB	
Admin/ Video/ Recording	Change: prefix string now will apply to the title in metadata and the container folder of each recording while uploading.
Admin/ Storage	Add connection test for NAS settings
Admin/ Scheduler	Opencast refresh interval changed from 1 hour to 5 minutes. (*Refresh interval on iCal remains the same as 1 hour)
Admin/ Scheduler	Change on the retry mechanism. After booting up, Media Station would start recording if there is any schedule of which start time has passed but not ended yet.
Admin/ Interactive	Interactive mode *(*license required)* Allows multiple Media Stations to setup distance meeting by streaming.
Admin/ System/ System Settings	Scheduled power on and off by day.
Director	Subtitle editor Allows users to overlay text on the mixed video on the web director page.
Director	Theme editor Allows users to edit existing themes on the web director page.
Video Manager	Add re-upload button for existing videos that have failed to upload.
GUI	
GUI/ Settings/ Network Settings	WAN IP address configuration on GUI.
GUI/ Menu	Camera control on GUI - Zoom in/out - Home, 8 directions continuous move - Preset calling: P0 ~ P7
Other	
Multi-language	Added Estonian language pack.
Other	Change: mute audio sources while pausing.
Other	Improve the audio input level indicator to be more sensitive.
Other	Recording indicator on UB-01B Record LED on UB-01B:

	- Slow flashing: record end processing - Fast flashing: record pause	

V2.9.0.12

- Fix "Panopto Remote Recorder ID issue exists in v2.9.x.6 ~ v2.9.x.11"
- Fix "[v2.9.x.6 ~ v2.9.x.11] adjusting volume level and switching layout in director via IE11 over-consume CPU"
- Fix "Click the 'Default button in Web Admin -> Media I/O -> Display -> Screen color adjustment will make image brighter"
- Modify "Media Station ignore the button pressed event of UB-01B in next 1 second after it is pressed to avoid accidental button-press event"
- Fix "If the network is disconnected during Kaltura scheduler recording, the recording would not stop until the network is re-connected"
- Fix random issue: "When Media Station is connecting to scheduler server: Opencast/Panopto/Kaltura, it is listed as 'cbox' on the server's capture agent list"
- Fix "In the Theme Editor, it is unable to apply setting if there were two windows were once set to the same channel"
- Fix "In the Theme Editor, after editing a theme with overlay and background, edit a theme without them, this theme preview will apply the previous theme's overlay and background"
- Fix "In the Theme Editor, after selecting the same channel in 2 windows and moving around any window, apply button would be available while it shouldn't"
- Fix "Station still shows the default booting screen when a customized one had been uploaded"
- Fix "When paired with UB-01, the recording indicator would not flashing during pause mode and recording end process"

- Notice: During the firmware update progress, please always keep the power on to prevent permanent system unstable or damage.
